*Thank
you*

all for remembering me on my birthday.

I am overwhelmed by the messages I received and feel indebted to all of you for being with me. Your friendship is my strength and your messages have reinforced this bond. May God bless all of you and keep our happy, healthy relation alive for many more years.

*My friends, U are those who have always cared
And know my faults and have always shared
The good, the bad and all the grey
And held my hand and showed me the way.
To me, my life and things we've shared,
But I love U the most because U care.*

Wishing you all the very best in life and once again thank you very much!

Dear Friends

As we move to the close of 2015 and the new dawn of 2016, I wish to convey my sincere wishes for a happy and prosperous New Year to you and your family.

2015 was eventful in many ways. The country embarked on an ambitious plan to add 175 GW of renewable energy by 2022. The "Make in India" campaign launched by our Hon'ble Prime Minister is now fructifying with fresh investments are coming to India in identified sectors. A massive skill development programme is also under way. Recently, COP-21 held in Paris made a clarion call to restrict the temperature rise to 1.5°C as against 2°C envisaged earlier. These and many more such initiatives have put the responsibility on our shoulders to strive for a sustainable future.

Nature gives enough to meet our needs, but not our greed. We have to strike a balance between our needs and wants if we wish to give a sustainable life for our future generations.

With best wishes and regards,

J K Mehta

Wishing all my Friends a Very Happy, Healthy and Satisfying New Year 2016
